

2021 UK ONCOLOGY
FORUM
VIRTUAL

VIRTUAL UK ONCOLOGY FORUM 2021

21st and 22nd October 2021

DRAFT PROGRAMME

To receive a CPD certificate you must attend:

At least 3 clinical sessions (eg Lung, Melanoma, Radiotherapy) etc.

Both keynote lectures

The Covid/Cancer discussion

The platform will monitor individual attendees “conference foot-print”. The secretariat is duty bound to ensure that all healthcare professionals attend the sessions, to be awarded CPD. Programme evaluation is compulsory, certificates will **ONLY** be awarded if all evaluations are completed.

CME accreditation is NOT awarded for Industry Symposia. Industry Symposia will **NOT** be run parallel to the UKOF programme.

DRAFT PROGRAMME DAY ONE – THURSDAY 21ST OCTOBER 2021

TIME	SUBJECT
08:30hrs ~ 10:30hrs	<p>UKONS – Sexual Health and Cancer 2 - all registered OF21 HCPs Welcome</p> <p>08:30hrs ~ 08:35hrs Welcome and introduction to the UKONS session Kay Bell, UKONS Board member</p> <p>08:35hrs ~ 08:45hrs Introduction to Penile Cancer Shievon Smith & Michelle Greenwood, Uro-Oncology CNS Barts Health</p> <p>08:45hrs ~ 09:15hrs Penile Cancer unmet needs Rob Cornes CNS Orchid Male Cancer Charity</p> <p>09:15hrs ~ 09:45hrs Psychosexual Needs and Cancer Psychosexual CNS Lorraine Grover, Harley Street Clinic</p> <p>09:45hrs ~ 09:50hrs Introduction for female sexual health and Cancer Shievon Smith & Michelle Greenwood, Uro-Oncology CNS Barts Health</p> <p>09:50hrs ~ 10:20hrs Patient perspective of sex and cancer Anita Brown, Bladder Cancer Patient</p> <p>10:20hrs ~ 10:30hrs Panel discussion with Q&A Michelle Greenwood, Shievon Smith & Anita Brown</p> <p><i>UKONS would like to thank the Champions Shievon Smith and Michelle Greenwood for organising this session</i></p>
10:30hrs ~ 12:00hrs	Notch AGM – all registered OF21 HCPs Welcome
10:30hrs ~ 11:30hrs	BAYER PROSTATE SYMPOSIUM (CME NOT AWARDED TO INDUSTRY SYMPOSIA)
10:30hrs ~ 11:30hrs	MERCK PFIZER ALLIANCE RENAL SPONSORED SYMPOSIUM (CME NOT AWARDED TO INDUSTRY SYMPOSIA)
11:45hrs ~ 12:45hrs	NOVARTIS PLATINUM SPONSOR BREAST SYMPOSIUM (CME NOT AWARDED TO INDUSTRY SYMPOSIA)
12:00hrs ~ 12:55hrs	EXHIBITION (PLEASE VISIT THE VIRTUAL STANDS)
13:00hrs ~ 13:05hrs	UKOF OPENS ~ WELCOME & INTRODUCTION – CHAIR: PROFESSOR RUTH PLUMMER
13:05hrs ~ 14:00hrs	<p>OPENING KEYNOTE SPEAKER – PROFESSOR LINDA BAULD</p> <p>Cancer prevention and Covid-19: How do we align communicable and non-communicable disease responses as part of Covid recovery?</p>
14:00hrs ~ 14:25hrs	EXHIBITION & CHARITY CORNER (PLEASE VISIT THE VIRTUAL STANDS)

TIME	SUBJECT	
14:30hrs ~ 17:00hrs	BREAST BREAKOUT – CHAIRS: DR MARINA PARTON & DR MARK VERRILL	
	14:30hrs ~ 14:35hrs	Welcome and introduction <i>Dr Marina Parton & Dr Mark Verrill</i>
	14:35hrs ~ 15:00hrs	NCRI update and roles of CSF <i>Mr Stuart McIntosh</i>
	15:00hrs ~ 15:25hrs	Conference updates <i>Dr Olga Oikonomidou</i>
	15:25hrs ~ 15:50hrs	Fast Forward <i>Dr Murray Brunt</i>
	15:50hrs ~ 16:15hrs	A year on covid <i>Ms Karen Verrill</i>
	16:15hrs ~ 16:40hrs	ESMO data <i>Dr Suzette Delaloge</i>
	16:40hrs ~ 16:55hrs	Q+A <i>All faculty</i>
	16:55hrs ~ 17:00hrs	Summary and closure <i>Dr Marina Parton & Dr Mark Verrill</i>
14:30hrs ~ 17:00hrs	COLORECTAL BREAKOUT – CHAIR: DR VICKY COYLE	
	14:30hrs ~ 14:35hrs	Welcome and introduction <i>Dr Vicky Coyle</i>
	14:35hrs ~ 15:00hrs	Highlights of ASCO/ESMO <i>Dr Lizzy Smyth</i>
	15:00hrs ~ 15:30hrs	Total neoadjuvant therapy for rectal cancer <i>Dr Sean O'Cathail</i>
	15:30hrs ~ 16:00hrs	Systemic therapy for MSI-H CRC <i>Dr Kai Keen Shiu</i>
	16:00hrs ~ 16:30hrs	Optimising MDM management for CRC survivors <i>Professor Katherine Van Loon</i>
	16:30hrs ~ 16:50hrs	Q+A <i>All faculty</i>
	16:50hrs ~ 17:00hrs	Summary and closure <i>Dr Vicky Coyle</i>
14:30hrs ~ 17:00hrs	GYNAECOLOGY – CHAIR: DR YVETTE DREW (awaiting programme & speakers)	
	14:30hrs ~ 14:35hrs	Welcome and Introductions <i>Dr Yvette Drew</i>
	14:35hrs ~ 15:05hrs	Targeting High Grade Serous Ovarian Cancer Beyond PARPi <i>Dr Stephanie Lheureux</i>
	15:05hrs ~ 15:30hrs	Novel follow-up strategies in Gynecological Cancers <i>Dr Esther Moss</i>
	15:30hrs ~ 15:55hrs	Cervical cancer advances and current UK trial portfolio <i>Dr Rebecca Bowen</i>
	15:55hrs ~ 16:15hrs	The challenges and future directions of surgical trials in gynaecological oncology <i>Professor Christina Fotopoulou</i>
	16:15hrs ~ 16:30hrs	ESMO 2021 Gynae -the Professors round-up <i>Professor Iain McNeish</i>
	16:30hrs ~ 16:50hrs	Panel Q and A session <i>All speakers and Chair</i>
	16:50hrs ~ 17:00hrs	Summary and closing remarks <i>Dr Yvette Drew</i>

TIME	SUBJECT		
14:30hrs ~ 17:00hrs	HEAD & NECK BREAKOUT – CHAIR (DR CHARLES KELLY)		
	14:30hrs ~ 14:35hrs	Welcome and introduction	<i>Dr Charles Kelly</i>
	14:35hrs ~ 15:00hrs	TBC	<i>TBC</i>
	15:00hrs ~ 15:30hrs	TBC	<i>TBC</i>
	15:30hrs ~ 16:00hrs	Where we will be in H&N surgery in ten years' time	<i>Professor Vinidh Paleri</i>
	16:00hrs ~ 16:30hrs	The next 10 years in H&N Radiotherapy	<i>Professor Vincent Gregoire (TBC)</i>
	16:30hrs ~ 16:50hrs	Q+A	<i>All faculty</i>
	16:50hrs ~ 17:00hrs	Summary and closure	<i>Dr Charles Kelly</i>
14:30hrs ~ 17:00hrs	LIVER & PANCREATIC BREAKOUT - CHAIRS: MS ANITA BALAKRISHNAN & PROFESSOR DEREK O'REILLY		
	14:30hrs ~ 14:35hrs	Welcome and introduction	<i>Ms Anita Balakrishnan & Professor Derek O'Reilly</i>
	14:35hrs ~ 15:00hrs	Enriching the pool of patients with pancreatic cancer that benefit from chemotherapy, in particular clinical trials such as POLO that used this approach	<i>Professor Eileen M. O'Reilly</i>
	15:00hrs ~ 15:30hrs	Clinical trials in pancreatic cancer surgery	<i>Professor Chris Halloran</i>
	16:00hrs ~ 16:30hrs	Advance in the treatment of colorectal liver metastases	<i>Professor Jean Nicolas Vauthey</i>
	16:30hrs ~ 16:50hrs	Novel advances in the systemic and locoregional treatments for cholangiocarcinoma	<i>Dr Thankamma Ajith Kumar</i>
	16:50hrs ~ 17:00hrs	Summary and closure	<i>Ms Anita Balakrishnan & Professor Derek O'Reilly</i>

TIME	SUBJECT
14:30hrs ~ 17:00hrs	LUNG BREAKOUT – CHAIR: PROFESSOR SAMREEN AHMED (awaiting programme/speakers)
	14:30hrs ~ 14:35hrs Welcome and introduction <i>Professor Samreen Ahmed</i>
	14:35hrs ~ 14:50hrs Update on advanced non-oncogene driven NSCLC: pivotal studies leading to current practice and then allude to perioperative treatment being the direction of travel with immunotherapy given adjuvantly <i>Dr Tom Newson-Davis</i>
	14:50hrs ~ 15:05hrs Update on advanced oncogene driven NSCLC: : pivotal studies leading to current practice and then allude to perioperative treatment being the direction of travel with osimertinib given adjuvantly for potential cure: <i>Dr Riyaz Shah</i>
	15:05hrs ~ 15:15hrs Panel Q and A session <i>All speakers and Chair</i>
	15:15hrs ~ 15:30hrs The advantages and pitfalls of genomic testing in lung cancer: development of genomic hubs and their purpose, how is genomic testing being rolled out and when will NGS be available in lung cancer for the majority of the country. Concept of the test directory: <i>Dr Rachel Butler</i>
	15:30hrs ~ 15:40hrs Panel Q and A session <i>All speakers and Chair</i>
	15:40hrs ~ 15:55hrs Update on radiotherapy advances in NSCLC (all stages): present pivotal studies leading to current practice and some discussion of oligomets treatments and outcomes: <i>Dr Sridhar Thiagarajan</i>
	15:55hrs ~ 16:10hrs Perioperative therapies: A surgical perspective: surgical outcomes for patients receiving chemotherapy/immunotherapy/radiotherapy. Some discussion of stage 3 operability: <i>Mr Ehab Bishay</i>
	16:10hrs ~ 15:20hrs Panel Q and A session <i>All speakers and Chair</i>
	16:20hrs ~ 16:30hrs Summary and closure <i>Professor Samreen Ahmed</i>

TIME	SUBJECT	
14:30hrs ~ 17:00hrs	MELANOMA BREAKOUT – CHAIR: DR SAMRA TURAJLIC	
	14:30hrs ~ 14:35hrs	Welcome and introduction <i>Dr Samra Turajlic</i>
	14:40hrs ~ 15:00hrs	Where next for uveal melanoma? <i>Professor Richard Cavajal</i>
	14:40hrs ~ 14:45hrs	Q&A <i>All</i>
	14:45hrs ~ 15:05hrs	Will the margin literature still be relevant if patients with Stage 2 are getting CPIs? OR Should neoadjuvant CPI be SOC in melanoma <i>Dr Alexander van Akkooi (TBC)</i>
	15:05hrs ~ 15:10hrs	Q&A <i>All</i>
	15:10hrs ~ 15:30hrs	Symptomatic brain metastases: curing the incurable? <i>Dr Kim Margolin</i>
	15:30hrs ~ 15:35hrs	Q&A <i>All</i>
	15:35hrs ~ 16:00hrs	Immunotherapy discontinuation - how, and when? <i>Professor Caroline Robert (TBC)</i>
	16:00hrs ~ 16:05hrs	Q&A <i>All</i>
	16:05hrs ~ 16:20hrs	ASCO/ESMO update <i>Professor James Larkin</i>
	16:20hrs ~ 16:25hrs	Q&A <i>All</i>
	16:25hrs ~ 16:40hrs	Panel discussion/debate <i>All Faculty</i>
	16:40hrs ~ 16:45hrs	Wrap up & close <i>Dr Samra Turajlic</i>
14:30hrs ~ 17:00hrs	PROSTATE BREAKOUT – CHAIR DR NICK VAN AS	
	14:30hrs ~ 14:35hrs	Welcome and introduction <i>Dr Nick Van As</i>
	14:35hrs ~ 15:00hrs	MRI in PCa, when to use, how to scan, what to look for? <i>Dr Clare Allen</i>
	15:00hrs ~ 15:30hrs	Metastasis directed therapy, when, how, what next? <i>Professor Piet Ost</i>
	15:30hrs ~ 16:00hrs	Surgery in high risk and metastatic disease. Should we be doing it? <i>Professor Noel Clarke</i>
	16:00hrs ~ 16:30hrs	Where to next fix systemic therapy in castrate sensitive PCa <i>Professor Christopher Sweeney</i>
	16:30hrs ~ 16:50hrs	Q+A <i>All faculty</i>
	16:50hrs ~ 17:00hrs	Summary and closure <i>Dr Nick Van As</i>
17:00hrs ~ 17:30hrs	EXHIBITION (PLEASE VISIT THE VIRTUAL STANDS)	
17:30hrs ~ 18:45hrs	COVID CANCER QUESTION TIME	

DRAFT PROGRAMME DAY TWO – FRIDAY 22ND OCTOBER 2021

TIME	SUBJECT
08:00hrs ~ 08:45hrs	JANSSEN-CILAG PROSTATE SYMPOSIUM (CME NOT AWARDED TO INDUSTRY SYMPOSIA)
08:00hrs ~ 08:45hrs	BAYER SPONSORED SYMPOSIUM (CME NOT AWARDED TO INDUSTRY SYMPOSIA)
08:00hrs ~ 09:00hrs	EXHIBITION (PLEASE VISIT THE VIRTUAL STANDS)

TIME	SUBJECT
09:00hrs ~ 11:30hrs	ACUTE ONCOLOGY BREAKOUT - CHAIR: DR ERNIE MARSHALL
	<p><i>The establishment of acute oncology services was first recommended in 2009 as an NHS requirement for all Hospital Trusts with an A&E department. Since its inception, acute oncology has become widely established across the country, leading to improvements in safety and quality of unplanned cancer care. However, despite this progress, there remains distinct variation in access to specialist advice with many teams only able to deliver 5 day service. Traditional acute oncology has focussed largely on inpatient care and neutropenic sepsis at a time of rapidly changing cancer care and urgent care transformation.</i></p> <p><i>Acute Cancer care is much bigger than traditional acute oncology and is a major component of the wider urgent care system – a system that remains under intense pressure exacerbated by the COVID pandemic.</i></p> <p><i>Late presentation of new cancers, treatment complications and cancer progression in an aging and multi-morbid population will require a system response in which Oncology must work ever more closely with urgent care partners. Acute Cancer presentation and service redesign will demand ever greater oncology leadership and vision if sustainable change is to be achieved. This approach should include novel approaches to reduce late presentation, management pathways that support networked services, greater access for same day emergency care (SDEC) and a greater focus on acute cancer research.</i></p> <p><i>The UK Oncology Forum inaugural Acute Oncology session will aim to show case some of the AO innovation that is taking place and highlight the need to develop a future AO workforce and leadership structure that ensures Oncology is an effective collaborative partner to the wider urgent care system.</i></p>
09:00hrs ~ 09:10hrs	Welcome and Introduction <i>Dr Ernie Marshall</i>
09:10hrs ~ 09:30hrs	Acute Oncology and Early Diagnosis: Oncology led Rapid Diagnostic Services <i>Dr Saoirse Dolly</i>
09:30hrs ~ 09:50hrs	Digital Acute Oncology: lessons from COVID <i>Dr Caroline Wilson</i>
09:50hrs ~ 10:20hrs	Cancer Centre Acute Oncology: The Acute Medicine Interface <i>Dr Tim Cooksley</i>
10:20hrs ~ 10:50hrs	The Cancer Unit: Nurse Delivered AO in the real World <i>Ms Naomi Clatworthy / Ms Christine Rhall</i>
10:50hrs ~ 11:10hrs	I-O Toxicity Update <i>Dr Anna Olssen Brown</i>
11:10hrs ~ 11:30hrs	Acute Oncology Careers: A joint voice from RCR/RCP and UKONS <i>Dr Robert Stuart</i>

TIME	SUBJECT
09:00hrs ~ 11:30hrs	BRAIN METASTASES AND GLIOMAS BREAKOUT - CHAIR: DR CATHERINE MCBAIN (awaiting programme & speakers)
	<p>In this session, we will review advances in the management in primary and secondary brain tumours, with a particular focus on the role of steroids and the interplay with immunotherapy. The session will be cross-cutting, spanning the evidence base while interrogating when, why and how we use dexamethasone and how we can ensure we are achieving benefits while minimising complications. Using real-life case histories, we will discuss advances in the treatment of primary malignant gliomas and, taking melanoma as our example, interrogate all the options (neurosurgery, stereotactic radiotherapy, whole brain radiotherapy and systemic therapy) for brain metastases. We will describe how we can protect our patients from steroid-induced harm, focusing particularly on bone health and diabetes, and discuss the important recently released 2021 National Patient Safety Alert around dexamethasone. We will close by asking whether there are any viable alternatives to steroid use. The session will be interactive and will be of relevance to any health care professional who encounters patients with primary or secondary brain tumours in primary care, secondary care, acute oncology or tertiary centres.</p>
09:15hrs ~ 09:20hrs	<p>Welcome and introduction <i>Dr Catherine McBain</i></p>
09:20hrs ~ 09:25hrs	<p>Primary brain tumours: current management and the truth about steroid requirements <i>Professor Susan Short</i></p>
09:25hrs ~ 09:55hrs	<p>Immunotherapy in Neuro-Oncology <i>Professor Dr Michael Weller</i></p>
09:55hrs ~ 10:20hrs	<p>Secondary brain tumours: multidisciplinary management <i>Professor Paul Lorigan</i></p>
10:20hrs ~ 10:50hrs	<p>Minimising complications of steroid use <i>Dr Janhoong Ho</i></p>
10:50hrs ~ 11:10hrs	<p>Alternatives to steroids – are there any? <i>Dr Gerben Borst</i></p>
11:10hrs ~ 11:40hrs	<p>Review quiz and Q+A <i>All faculty</i></p>
11:40hrs ~ 11:45hrs	<p>Summary and closure <i>Dr Catherine McBain</i></p>

TIME	SUBJECT
09:00hrs ~ 11:30hrs	MACMILLAN GP SESSION BREAKOUT - DAY – CHAIR: DR ANTHONY CUNLIFFE (awaiting programme & speakers)
	<p><i>‘Personalised care and cancer- it’s everyone’s business’</i></p> <p><i>Ensuring that people living with cancer receive personalised care is everyone’s business, with touchpoints from the point of diagnosis, through to prehab, treatment decisions, acutely unwell episodes, good quality cancer care review conversations, needs assessments, gaining support from social prescribers and courageous end of life care conversations. The COVID-19 pandemic has notably impacted patient care over the past 12-18 months, with changes to ways of working, huge reductions in patients presenting with signs or symptoms of cancer and changes or delays to treatment plans due to infection risk. All of these changes have had an impact on the ability of health and care Professoessionals to continue to ensure the delivery of good quality personalised care for people living with cancer.</i></p> <p><i>In this workshop, we’ll explore the impact of the pandemic on the delivery of personalised care for people living with cancer and will consider how we can sustain positive changes to ways of working and innovative adaptations to delivery of care developed through the pandemic, whilst ensuring that inequalities are not exacerbated as a result. This session will bring together a multi-Professoressional team to consider how we can build on the strengths of different Professoressionals involved in delivering care to people following a cancer diagnosis. Through the use of case studies, we’ll generate an interactive conversation based around the key times of need experienced by cancer patients to draw out what each individual can bring to achieving personalised care supported by evidence and insight throughout.</i></p> <p><i>Speakers: Dr Anthony Cunliffe (Chair), Sophia Nicola, Dr Ashling Lillis, June Davis</i></p>

TIME	SUBJECT	
09:00hrs ~ 11:30hrs	RADIOTHERAPY BREAKOUT - CHAIR FIONA MCDONALD	
	09:00hrs ~ 09:05hrs	Welcome and Introduction <i>Dr Fiona McDonald</i>
	09:00hrs ~ 09:35hrs	The future of hypo-fractionated treatments – What lessons can be learnt from FAST FORWARD? <i>Professor Charlotte Coles</i>
	09:35hrs ~ 10:05hrs	The future of the UK Proton Programme – Where are we in 2021 and what are future plans? <i>Dr Romelie Rieu</i>
	10:05hrs ~ 10:25hrs	Coffee break / visit exhibition
	10:25hrs ~ 10:55hrs	The future of drug-radiation studies – Lessons learnt from developing CONCORD? <i>Dr Alastair Greystoke</i>
	10:55hrs ~ 11:25hrs	The future of UK SABR – Challenges of national rollout and ongoing research <i>Dr John Conibear</i>
	11:25hrs ~ 11:30hrs	Summary and closure <i>Dr Fiona McDonald</i>
09:00hrs ~ 11:30hrs	RENAL & BLADDER BREAKOUT - CHAIRS: PROFESSOR ALISON BIRTLE & PROFESSOR PETER HOSKINS	
	<i>'The Bladder/Renal Jigsaw : Putting the pieces together'</i>	
	09:00hrs – 09:05hrs	Welcome and introduction <i>Professor Alison Birtle & Professor Peter Hoskins</i>
	09:05hrs – 09:25hrs	Surgical areas of controversy in urothelial cancer <i>Miss Jo Cresswell</i>
	09:25hrs – 09:45hrs	What is needed in bladder/renal cancer from patient perspective <i>Ms Shievon Smith</i>
	09:45hrs – 10:05hrs	Metastatic and urothelial cancer. How has the world changed in 2021? Did practice change during covid-19? <i>Professor Syed Hussein</i>
	10:05hrs – 10:25hrs	MRI in bladder cancer avoiding TURBT <i>Professor Nicholas James</i>
	10:25hrs – 10:30hrs	ESMO/ASCO/ASCO GU update <i>Professor Syed Hussein</i>
	10:30hrs – 11:10hrs	Imaging of urothelial cancers including TTCs of the kidney <i>Dr Ben Taylor</i>
	11:10hrs – 11:25hrs	Stereotactic and more! <i>Dr Kate Fife</i>
	11:25hrs – 11:30hrs	Summary and closure <i>Professor Alison Birtle & Professor Peter Hoskins</i>

TIME	SUBJECT
09:00hrs ~ 11:30hrs	TREATING THE OLDER CANCER PATIENT BREAKOUT - CHAIR: PROFESSOR KWOK-LEUNG CHEUNG
09:00hrs – 09:05hrs	Welcome and introduction <i>Professor Kwok-Leung Cheung</i>
09:05hrs – 09:25hrs	Prehabilitation – using hepatobiliary malignancy as an example <i>Mr Nicola de' Liguori Carino</i>
09:25hrs – 09:45hrs	ASCO updates <i>Dr Antonella Brunello</i>
09:45hrs – 10:05hrs	The impact of Covid-19 on older patients with cancer <i>Dr Giuseppe Colloca</i>
10:05hrs – 10:25hrs	Q+A <i>All faculty</i>
10:25hrs – 10:30hrs	BREAK
10:30hrs – 11:10hrs	Difficult and challenging cases – MDT discussion <i>Dr Lisa Rodgers and Dr Anthea Cree (co-leads) and all faculty</i>
11:10hrs – 11:25hrs	Q+A <i>All faculty</i>
11:25hrs – 11:30hrs	Summary and closure <i>Professor Kwok-Leung Cheung</i>
09:00hrs ~ 11:30hrs	UKOMIC BREAKOUT - CHAIR: DR CHARLES KELLY (awaiting programme & speakers)

TIME	SUBJECT	
09:00hrs ~ 11:30hrs	UKONS BREAKOUT – CHAIR: MS TRACY WILSON	
	<p>Title- Prehabilitation and beyond: Preparing for the future</p> <p>Aims-</p> <ul style="list-style-type: none"> • Identify the rationale for prehabilitation and rehabilitation • Identify workforce opportunities • Demonstrate an evidence base for service development <p>Sessions-</p> <ol style="list-style-type: none"> 1. Behaviour change- universal interventions 2. Non-specialist workforce- utilising existing workforce 3. Specialist interventions- developing specialist services 4. Building a business case- how to pitch your argument! 5. Panel discussion 	
09:00hrs ~ 09:10hrs	Introduction - <i>why think about prehab? What's it all about?</i>	<i>Ms Tracy Wilson</i>
09:10hrs ~ 09:35hrs	Behaviour change in practice - <i>more than meets the eye. The SafeFit model</i>	<i>Ms Judit Varkonyi-Sepp</i>
09:35hrs ~ 10:00hrs	Non-specialist workforce- <i>example of how non-specialist prehab practitioners incorporated into their practice</i>	<i>Ms Jo McNamara / Ms Hazel Pennington</i>
10:00hrs ~ 10:25hrs	Specialist interventions- <i>when you need that bit more. Case study on setting up the specialist prehab/rehab service in Sheffield</i>	<i>Mr Liam Humphreys</i>
10:25hrs ~ 10:50hrs	Building a business case- <i>what do you need to make an impact? How can you persuade others to make a system change?</i>	<i>Mr Jason Tong / Ms Shana Hall / Ms Leah Cox</i>
10:50hrs ~ 11:20hrs	Panel discussion	<i>All</i>
11:20hrs ~ 11:30hrs	Closing remarks	<i>Ms Tracy Wilson</i>

TIME	SUBJECT
09:00hrs ~ 11:30hrs	UPPER GI BREAKOUT - CHAIRS: PROFESSOR RUSSELL PETTY & DR JANET GRAHAM
	<i>The last 12 months have provided us with a series of positive trials in gastroesophageal cancer providing new treatment options for our patients. This session will provide updates from these practice changing studies reported in 2021, straight from the chief investigators themselves and combine this with a real-world perspective of the challenges of managing gastroesophageal cancer patients in practice. We will discuss how the latest trial outcomes can be applied to make optimal treatment choices for individual patients in the advanced and early-stage settings, for systemic, radiotherapy and surgical treatment.</i>
09:00hrs – 09:05hrs	Welcome and introduction <i>Professor Russell Petty & Dr Janet Graham</i>
09:05hrs ~ 09:25hrs	Decision making in peri-operative treatment of gastroesophageal cancer - what have we learnt from the neo-Aegis Trial <i>Professor John Reynolds</i>
09:25hrs ~ 09:40hrs	Defining the optimal role for checkpoint inhibitors in the perioperative treatment of gastroesophageal cancer <i>Dr Lizzy Smyth</i>
09:40hrs ~ 10:00hrs	Optimising the systemic treatment of older and frailer patients with advanced gastroesophageal cancer <i>Professor Matt Seymour</i>
10:00hrs ~ 10:20hrs	Checkmate 648 and the emerging role for Immunotherapy in Advanced Squamous cTII carcinoma Oesophagus <i>Dr Ian Chau</i>
10:20hrs ~ 10:50hrs	The state the art treatment of advanced gastroesophageal adenocarcinomas (including ASCO and ESMO updates) <i>Dr Yelena Janjigian</i>
10:50hrs ~ 11:15hrs	Q+A <i>All Faculty</i>
11:15hrs ~ 11:25hrs	Summary and closure <i>Professor Russell Petty & Dr Janet Graham</i>
11:30hrs ~ 12:00hrs	EXHIBITION (PLEASE VISIT THE VIRTUAL STANDS)
12:00hrs ~ 13:00hrs	CLOSING KEYNOTE SPEAKER – PROFESSOR SAM JANES ~ UKOF CLOSES
13:00hrs ~ 14:00hrs	EXHIBITION (PLEASE VISIT THE VIRTUAL STANDS)
13:15hrs ~ 14:00hrs	PIERRE FABRE MELANOMA SPONSORED SYMPOSIUM (CME NOT AWARDED TO INDUSTRY SYMPOSIA)
13:15hrs ~ 14:00hrs	PIERRE FABRE CRC SPONSORED SYMPOSIUM (CME NOT AWARDED TO INDUSTRY SYMPOSIA)
13:15hrs ~ 14:00hrs	SEAGEN – BREAST SPONSORED SYMPOSIUM (CME NOT AWARDED TO INDUSTRY SYMPOSIA)
